## Summer School Clinical Investigation in Zurich 20. – 24. August 2018

### ABOUT THE PROGRAM

This week-long program will help clinicians and clinician-scientists to build skills in clinical investigation with a particular focus on clinical trials, to increase knowledge in statistical analysis, and to connect to a community of like-minded researchers.

The curriculum includes sessions on:

- Novel Trial Design: Sequential and Adaptive Designs
- Secondary Analysis of Clinical Trials
- Quantitative Methods for Benefit-Harm Analysis
- Ethics of Comparative Trials
- Statistical Monitoring and Data Monitoring Committees
- Power and Sample Size
- Survival Analysis in Clinical Trials
- Publishing Trials

Learn from University of Zurich and Harvard Professors, including Milo Puhan, Marc Pfeffer, Scott Solomon, Caren Solomon, Henock Yebo, Helene Aschmann, Ajay Singh, Brian Claggett, Torsten Hothorn and Marc Vandemeulebroecke.

### TUITION

Early Career Scientists (PhDs, PostDocs, research fellows): CHF 800

Senior Scientists from Academia: CHF 1600

Members from Industry: CHF 4400
