

**University of
Zurich** ^{UZH}

Epidemiology, Biostatistics and Prevention Institute (EBPI)

Center of Salutogenesis

**A great fit with EBPI's focus on prevention and
management of chronic diseases**

Launching Event for the Center of Salutogenesis

September 8, 2017

Milo Puhan, MD, PhD

Prof of Epidemiology and Public Health

Director EBPI, www.ebpi.uzh.ch

Tracking Health

The EBPI's four, closely-linked major areas of activity bridge teaching and training to evidence-based health care and public health services

Teaching & Training

Research Methods Hub

Translational Research

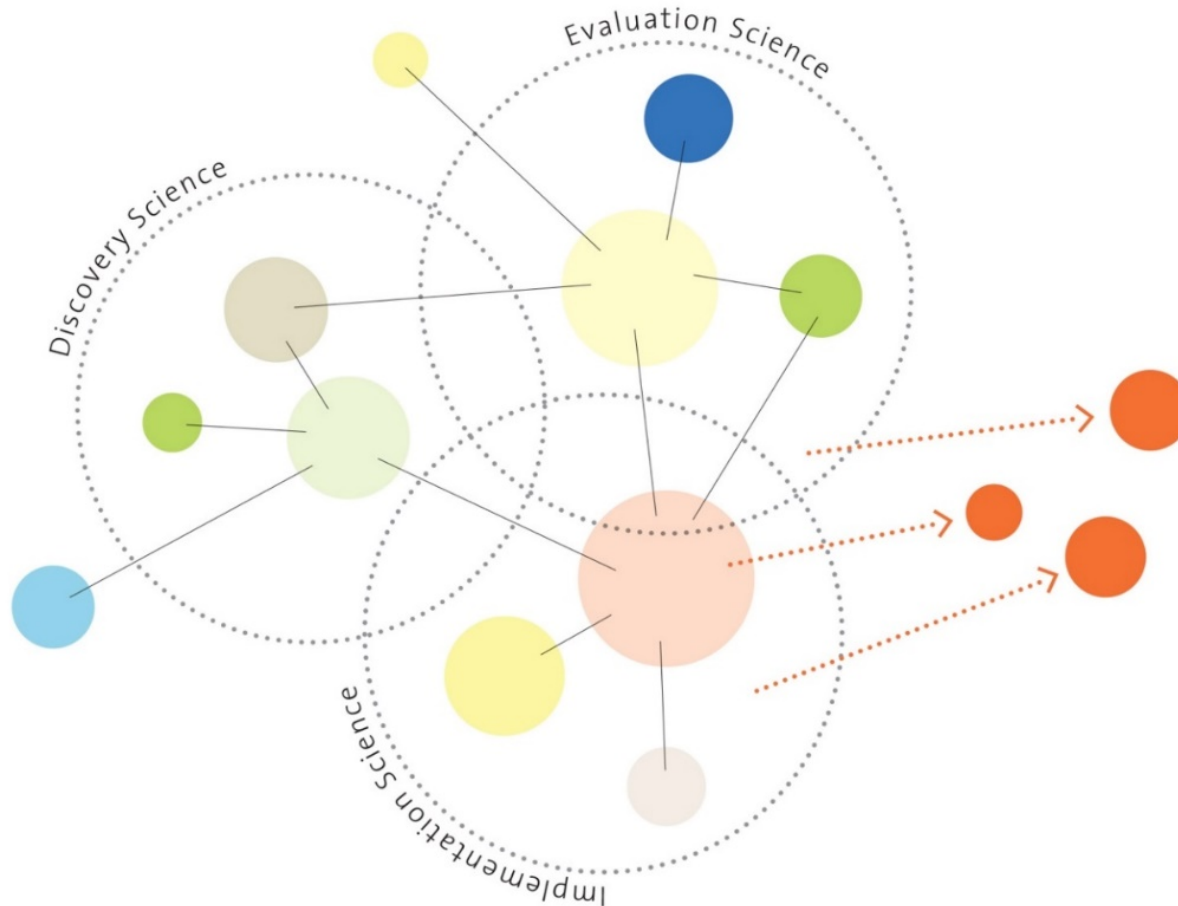

Services

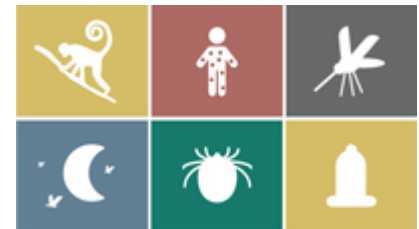

Translational research at EBPI

Kanton Zürich
Gesundheitsdirektion
**Prävention und
Gesundheitsförderung**

Travel Clinic of UZH

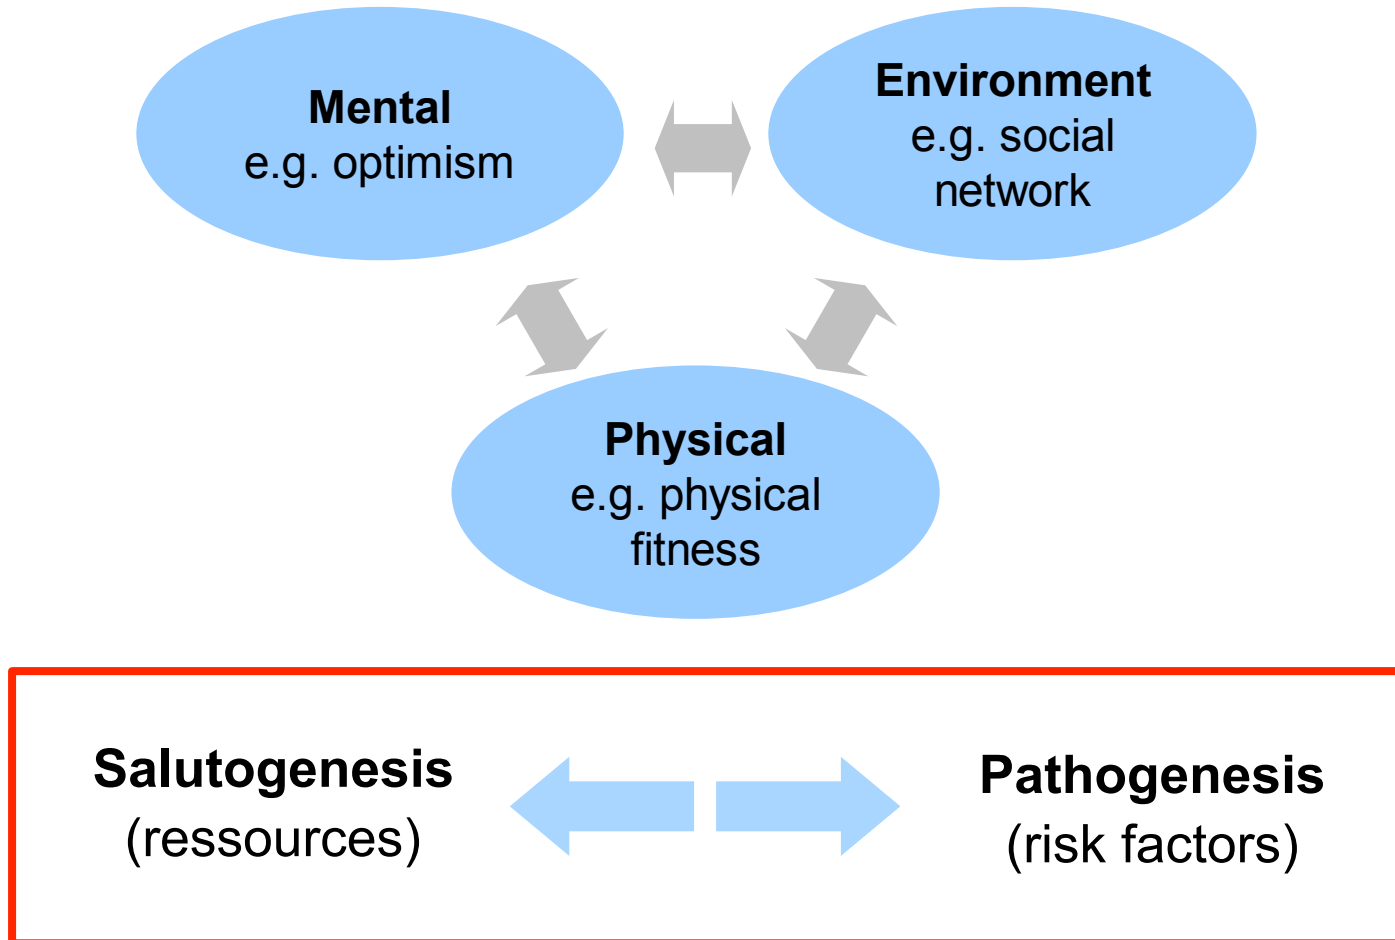

Occupational and Environmental Medicine

Key determinants of health

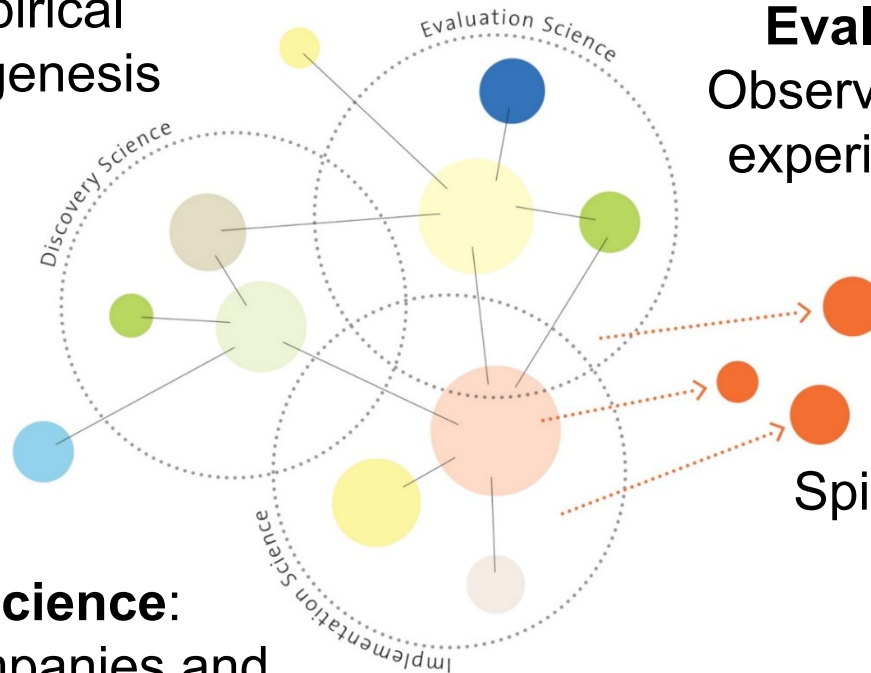

The Center of Salutogenesis is truly translational

Discovery Science:

Conceptual and empirical foundations of salutogenesis
